CHAPTER 1: TECHNIQUES AND INSTRUMENTATIONS

§ 1.1. PULSED NEUTRON SOURCE

ISHIKAWA, Y., Studies of condensed matter with a pulsed neutron source (KENS) (*Invited paper*) 3
LANDER, G.H., Pulsed neutrons: one year of experience with the new source at Argonne National Laboratory (*Invited paper*) 15
ECKERT, J., Condensed matter research at the Los Alamos pulsed neutron source (WNR) 25
FARNOUX, B. and CRIBIER, D., A new steady state medium flux neutron source 31
FRANK, I.M. and PACHER, P., First experience on the high intensity pulsed reactor IBR-2 37
ENDOH, Y., SASAKI, Y., ONO, H., MITSUDA, S. and IKEDA, S., Polarized neutron scattering using pulsed spallation neutron source at KEK 45

§ 1.2. SPIN ECHO AND SPIN MODULATION TECHNIQUES

MEZEI, F., Neutron spin echo: ten years after (*Invited paper*) 51
ITO, Y., NISHI, M. and MOTOYA, K., Features of neutron spectral modulation (NSM) technique 61
MAZURÉ-ESPEJO, C., SCHLENKER, M., BARUCHEL, J., GUIGAY, J.P. and MEZEI, F., Local measurement of magnetization in a gallium-substituted YIG crystal by neutron spin echo 66
ZEYEN, C.M.E., A neutron spin echo triple axis spectrometer (*Abstract*) 70

§ 1.3. OPTICAL DEVICES

RAUCH, H., Features of advanced neutron optical devices 71
BARUCHEL, J., GUIGAY, J.P., MAZURÉ-ESPEJO, C., SCHLENKER, M. and SCHWEIZER, J., Observation of Pendellösung effect in polarized neutron scattering from a magnetic crystal (*Abstract*) 80
REKVELDT, M.Th. and KRAAN, W.H., Curved neutron mirror system as an improved polariser 81
FREUND, A., PYNN, R., STIRLING, W.G. and ZEYEN, C.M.E., Vertically focussing Heusler alloy monochromators for polarised neutrons 86
ONO, M., YOSHIDA, H., OKAMOTO, S., OSAMURA, K. and TSUNEKAWA, H., An application of wide band chopper for small angle neutron scattering 91
TOMIMITSU, H., DOI, K. and KAMADA, K., Neutron diffraction topographic observation of substructures in Cu-based alloys 96

HIDAKA, M., WRIGHT, A.F. and HEATHMAN, S.P., Neutron diffraction camera method applied in the study of phase transitions (*Abstract*) 103
NIIMURA, N., YAMADA, K., KUBOTA, T., MATSUMOTO, A. and HOSHINO, S., Position sensitive neutron detectors using ^{6}Li glass scintillators 104

§ 1.4. NEW SPECTROMETERS

SHIRANE, G., X-rays from synchrotron: new challenge for neutron scattering (*Invited paper*) 108
LYNN, J.W., MILLER, W.A., DOMBECK, T.W., RINGO, G.R., KROHN, V.E. and FREEDMAN, M.S., Time-of-flight spectrometer for ultra-cold neutrons 114
UTSURO, M. and KAWABATA, Y., A new system of gravity spectrometer with fall focussing of ultra cold neutrons 118
KOMURA, S., TAKEDA, T., FUJII, H., OSAMURA, K., MOCHIKI, K. and HASEGAWA, K., Design and use of a 6 meter neutron small-angle scattering spectrometer at KUR 122
CARPENTER, J.M., WATANABE, N., IKEDA, S., MASUDA, Y. and SATO, S., A resonance detector spectrometer at KENS 126
IKEDA, S., WATANABE, N. and KAI, K., Crystal analyser TOF spectrometer (CAT) 131
TAJIMA, K., ISHIKAWA, Y., KANAI, K., TOMIYOSHI, S. and TODATE, Y., Multi-analyser crystal spectrometer (MAX) for pulsed neutron source and its application to various problems 136

CHAPTER 2: MAGNETIC STRUCTURES AND EXCITATIONS

§ 2.1. MAGNETIC EXCITATIONS IN METALS AND ALLOYS

TOMIYOSHI, S., FUNAHASHI, S. and YAMAGUCHI, Y., Magnetic excitations in Mn_3Si 143
MOTOYA, K., SHAPIRO, S.M. and MURAOKA, Y., Small angle elastic and inelastic neutron scattering in $Fe_{0.7}Al_{0.3}$ 147
McEWEN, K.A., STIRLING, W.G. and VETTIER, C., Soft-mode behaviour of magnetic excitations in praseodymium under uniaxial stress 152
MIKKE, K., JANKOWSKA, J. and JAWORSKA, E., Spin waves in a single-domain γ-Mn (10% Fe) alloy 156
SVARE, I. and OTNES, K., Crystal field splittings and rapid direct relaxation of Fe^{2+} spin states from inelastic neutron scattering 159
ROSSAT-MIGNOD, J., DELACÔTE, D., EFFANTIN, J.M., VETTIER, C. and VOGT, O., A neutron study of the magnetic excitations in CeBi 163
WILTSHIRE, M.C.K. and ELCOMBE, M.M., Magnon measurements on a γ-$Mn_{90}Cu_{10}$ single crystal 167
BLANCKENHAGEN, P. v., LIN, C., HENNION, B. and HENNION, M., Order–disorder transition and spin waves in Ni_3Mn 170
BLANCKENHAGEN, P. v. and LIN, C., Magnetic short-range order and spin waves in Fe_3Si above the Curie temperature 173
AKSENOV, V.L., GOREMYCHKIN, E.A. and FRAUENHEIM, Th., Line width of magnetic excitations in the cubic Laves-phase compounds $PrNi_2$, $PrAl_2$ 176

§ 2.2. MAGNETIC EXCITATIONS IN LOW DIMENSIONAL SYSTEMS

BIRGENEAU, R.J., Random field effects in magnets (*Invited extended abstract*) 180
NAGLER, S.E., BUYERS, W.J.L., ARMSTRONG, R.L., LOCKWOOD, D.J. and

RITCHIE, R.A., Magnetic excitations in the dilute one-dimensional Ising-like antiferromagnet 183
HIRAKAWA, K., KADOWAKI, H. and UBOKOSHI, K., Anomalous spin correlation in a linear-chain triangular lattice antiferromagnetic $CsVCl_3$ 187
LINDGÅRD, P.-A., Theory of excitations in the 1d singlet ground state magnet $CsFeCl_3$ 190
IKEDA, H., SOMEYA, Y., ENDOH, Y., NODA, Y. and SHIBATA, F., Magnetic excitations in two-dimensional antiferromagnets $Rb_2CO_cNi_{1-c}F_4$ 193

§ 2.3. SPIN DENSITY DISTRIBUTIONS

MOOK, H.A., PRINGLE, O.A., KAWARAZAKI, S., SINHA, S.K., CRABTREE, G.W., HINKS, D.G., MAPLE, M.B., FISK, Z., JOHNSTON, D.C., WOOLF, L.D. and HAMAKER, H.C., Superconductivity and magnetism in ternary rare-earth compounds (*Invited paper*) 197
STEIJGER, J.J.M., FRIKKEE, E., DE JONGH, L.J. and HUISKAMP, W.J., Magnetic ordering in the layered compound $(CD_3ND_3)_2CuCl_4$ 202
MATSUURA, M., KOYAMA, K., MURAKAMI, Y., AJIRO, Y. and TERATA, N., Successive phase transitions in a random system $Mn_{1-x}Zn_x(HCOO)_2 \cdot 2D_2O$ (*Abstract*) 206
ITO, A., TAMAKI, T., SOMEYA, Y. and IKEDA, H., Competing magnetic orderings in random mixtures: $Fe_xNi_{1-x}Cl_2$ 207
NAKAMURA, Y., SHIGA, M. and KAWANO, S., Antiferromagnetism of YMn_2 intermetallic compound 212
RADHAKRISHNA, P. and BROWN, P.J., A study of the paramagnetic form factor of rhodium metal by polarized neutron diffraction 216
BADER, S.D., FELCHER, G.P., GRAY, K.E. and KAMPWIRTH, R.T., A new probe for surface magnetism: polarized neutron reflection (*Abstract*) 219
KAWANO, S. and ACHIWA, N., Magnetic structure of hcp He–Ce and Er–Ce alloys 220
LYNN, J.W., SHELTON, R.N., HORNG, H.E. and GLINKA, C.J., Investigation of the magnetic and superconducting properties of $(Er_{1-x}Ho_x)Rh_4B_4$ 224
SOUBEYROUX, J.L., BUFFAT, B., CHEVREAU, N. and DEMAZEAU, G., Magnetic properties of oxides containing six-coordinated iron (IV) or (V) 227

CHAPTER 3: SOLITONS, PHASE TRANSITIONS AND LATTICE DYNAMICS

§ 3.1. SOLITONS

MIKESKA, H.J., Solitons in the one-dimensional easy-plane ferromagnet (*Invited paper*) 235
BOUCHER, J.P., REGNAULT, L.P., ROSSAT-MIGNOD, J., RENARD, J.P., BOUILLOT, J., STIRLING, W.G. and MEZEI, F., Soliton dynamics in the one-dimensional antiferromagnet TMMC $[(CD_3)_4NMnCl_3]$ (*Invited paper*) 241
STEINER, M., KAKURAI, K. and KJEMS, J.K., Inelastic neutron scattering studies of nonlinear excitations in the 1d ferromagnet $CsNiF_3$ with an external field 250
FEDYANIN, V.K., Neutron scattering on solitons in quasi-one-dimensional systems (*Abstract*) 255

§ 3.2. PHASE TRANSITIONS

AXE, J.D., Recent progress in commensurate–incommensurate phase transformations (*Invited paper*) 256
MARMEGGI, J.C., DELAPALME, A., LANDER, G.H. and VETTIER, C., Neutron investigations of the charge-density wave in α-uranium 263

COWLEY, R.A., BLEIF, H.-J., ANDREWS, S.R. and NELMES, R.J., Ferroelectric fluctuations in KDP and DKDP 267
YAMADA, Y., NODA, Y. and ENDOH, Y., Proton dynamics at the ferroelastic phase transition in $KH_3(SeO_3)_2$ 270
SATO, M., FUJISHITA, H., MOODENBAUGH, A.R., HOSHINO, S. and GRIER, B.H., Neutron diffraction and scattering study on M_xWO_3 (M = Rb and K) 275
ZEYEN, C.M.E., DOLINO, G. and BACHHEIMER, J.P., Neutron and calorimetric observation of a modulated structure in quartz just above the α–β phase transition 280
ZEYEN, C.M.E., Neutron observations of phasons and amplitudons in incommensurate phases 283

§ 3.3. LATTICE DYNAMICS

NAKAI, Y. and TSUNODA, Y., Harmonics of phonons in Al 286
IIZUMI, M. and GESI, K., Incommensurate lattice instability in $[N(CD_3)_4]_2ZnCl_4$ 291
ISIHARA, A. and NAKANE, Y., Structure factors and elementary excitations of condensed matter 296
SCHWEISS, B.P., FUESS, H., FECHER, G. and WEISS, A., Neutron spectroscopy of anilinium bromide 300
FUNAHASHI, S., KONDOW, T. and IIZUMI, M., Coupling of longitudinal phonons with transverse Einstein mode in $C_{24}Rb$ 305
AKSENOV, V.L., GOREMYCHKIN, E.A., MÜHLE, E., FRAUENHEIM, Th. and BÜHRER, W., Coupled quadrupole–phonon excitations: inelastic neutron scattering on Van Vleck paramagnet $PrNi_5$ 310
JINDAL, V.K. and KALUS, J., Calculation of the phonon width and phonon shifts in naphthalene-d_8 314
NODA, Y., ENDOH, Y., KATANO, S. and IIZUMI, M., Lattice dynamics of FePt alloys of AB_3 type ordered structure 317

CHAPTER 4: NON-PERIODIC AND NON-EQUILIBRIUM SYSTEMS

§ 4.1. NON-PERIODIC SYSTEMS

NEILSON, G.W., The application of neutron scattering methods to aqueous electrolyte solutions (*Invited paper*) 325
EGELSTAFF, P.A., Many-body effects in the structure of water 335
KAI, K., IKEDA, S., FUKUNAGA, T., WATANABE, N. and SUZUKI, K., The local environment around hydrogen atoms in hydrogenated $NiTi_2$ alloy glass 342
UENO, M., MISAWA, M. and SUZUKI, K., On the change in coordination of Ge atoms in Na_2O–GeO_2 glasses 347
FUKUNAGA, T., HAYASHI, N., KAI, K., WATANABE, N. and SUZUKI, K., Chemical short-range structure of Ni_xTi_{1-x} ($x = 0.26$–0.40) alloy glasses 352
KJEMS, J.K., ANDERSEN, N.H., SCHOONMAN, J. and CLAUSEN, K., Structure and dynamics of disordered solids: a neutron scattering study of $Ba_{1-x}La_xFe_{2+x}$ 357
TAKAHASHI, T., TOMINITSU, H., USHIGAMI, Y., KIKUTA, S., DOI, K. and HOSHINO, S., The very-small angle neutron scattering from SiO_2–PbO glasses 362
WILLIAMS, D.E.G. and ZIEBECK, K.R.A., Inelastic scattering of polarized neutrons by amorphous $Fe_{4.7}Co_{70.3}Si_{15}B_{10}$ 367
COWLEY, R.A., PAUL, D. McK., STIRLING, W.G. and COWLAM, N., Polarised neutron scattering from the amorphous ferromagnet $Fe_{83}B_{17}$ 373

§ 4.2. NON-EQUILIBRIUM SYSTEMS

RISTE, T. and OTNES, K., Neutron scattering study of convection in a double-diffusive system (*Invited paper*) 376
FURUSAKA, M., ISHIKAWA, Y., YAMAGUCHI, S. and FUJINO, Y., Spinodal decomposition in Fe–Cr alloys studied by small angle neutron scattering 383
KOSTORZ, G., Phase separation and defects in crystals studied by small-angle neutron scattering 387
KATANO, S. and IIZUMI, M., Decomposition kinetics in iron–chromium alloys 392
KOMURA, S., OSAMURA, K., FUJII, H. and TAKEDA, T., Decomposition process in Al–Zn and Al–Zn–Mg alloys 397
KAWARAZAKI, S., KUNITOMI, N., NICKLOW, R.M. and SMITH, H.G., Effect of the application of uniaxial stress on precipitation in an Al(Cu) alloy 401

CHAPTER 5: POLYMERS AND BIOLOGY

§ 5.1. POLYMERS

DE GENNES, P.G., Some neutron experiments on flexible polymers (*Invited abstract*) 407
HAYASI, H. and FLORY, P.J., Configuration of the polyisobutylene chain in bulk and in solution according to elastic neutron scattering 408
OKANO, K., KURITA, K., NAKAJIMA, S., WADA, E., FURUSAKA, M. and ISHIKAWA, Y., Compensation point in semi-dilute polymer solutions as observed by SANS 413
KOYAMA, R., Small-angle neutron scattering of polymer solutions 418
INOUE, K., KIYANAGI, Y., KOHGI, M. and KAJI, K., Neutron quasi-elastic scattering studies of molecular liquids and polymers by pulsed cold neutron source 422

§ 5.2. BIOLOGICAL SYSTEMS

NIERHAUS, K.H., LIETZKE, R., NOWOTNY, V., SCHULZE, H., WURMBACH, P., STUHRMANN, H.B. and MAY, R.P., Shapes of and distances between components within the large (50S) subunit of *E. coli* ribosomes (*Invited paper*) 426
MITA, K., ZAMA, M., ICHIMURA, S., NIIMURA, N., KAJI, K., HIRAI, M. and ISHIKAWA, Y., Small angle neutron scattering studies of the structure of nucleosome cores at low ionic strength 436
TOYOSHIMA, Y., TAKEDA, T., AKABORI, K. and KOMURA, S., Some aspects of the structure change of lipid bilayers associates with the thermotropic phase transition 440
IZUMI, Y., MIYAKE, Y., KUWAJIMA, K., SUGAI, S., INOUE, K., IIZUMI, M. and KATANO, S., Folding–unfolding of α-lactalbumin 444

CHAPTER 6: WORKSHOP

BROWN, P.J. and MOON, R.M., Summary of the workshop on polarized neutron technique 451

LIST OF CONTRIBUTORS 453
ANALYTIC SUBJECT INDEX 455
